Mrs. Charney as choir leader, was presented with a small gift and best wishes from the choir. The twins had a marvellous birthday cake, decorated cowboy style with Hopalong Cassidy motif.

SALLY FORREST knows the subtle language of the fan, particularly when held in this position. It's what intrigued Burt Lancaster during the filming of "Vengeance Valley" at MGM in which both stars play provocative roles toward each other.

FARM UNION BRANCH FORMED IN CROSSFIELD DISTRICT RECENTLY

CROSSFIELD. — On Friday, April 6 at 8:00 p.m., a meeting of the FUA was held in the Crossfield Memorial hall with an attendance of approximately sixty persons.

Geo. Roth of Red Deer, director of District No. 10, was guest speaker, with sub-directors Mrs. Eva Banta and Mrs. Ray Wood assuming chair duties.

The purpose of the meeting was to organize an FUA, which plan was met with approval and 22 members signed on the dotted line.

Elden Stafford was elected

president; Mervin Fox, 1st vice-president, and Billy Bills as secretary-treasurer. There were five directors named: Jack Konash, Jim Banta, Fred Jensen, Billy Bills and Wm. Bagnall.

With their husbands, sons, sweethearts active on war front, female members of Princess Patricia's Canadian Light Infantry "Service Club" have been busy knitting on the home front. Hundreds of needles are being worked overtime at Service Clubs from Halifax to Vancouver, producing a steady stream of socks and other knitted articles for the Pats. Seen here are two war-wives pictured at a get-together of one of the Clubs here.

Exit Free Press--- Exit Freedom

For a long time, the only semblance of Freedom in Argentina has been in the columns of La Prensa, a daily newspaper that has dared to find fault with the Peron Government. By means of a phony labor strike, the Dictator succeeded in putting the paper out of business. When the thousand loyal employees tried to return to work they were attacked and beaten and one worker was killed.

The police, who should have given protection, stood idly by while the lawless "strikers" interfered with the paper's employees. As a result of the "disturbance", the Government swore out a warrant for the arrest of the Publisher who outwitted the Government and fled to neighboring Uruguay.

Now the Government, which could not take criticism, is secure in the knowledge that, having banished La Prensa, they have banished freedom. Such is the fate of a country in the toils of dictatorship.

Child Welfare Storm Brewing

A new child welfare storm may be brewing in Alberta with the demand from Liberal leader Harper Prowse that a "full, complete and exhaustive report" be given on measures taken by the provincial government to implement recommendations of the Royal Commission on Child Welfare.

It is about time someone has made this demand.

Following the sordid "Babies for Export" scandal in 1948, a Royal Commission investigated the procedure of adoptions under the Minister of Public Welfare and made many recommendations to end abuses.

The government said, in effect, "make all the recommendations you want—we'll put them into effect when we feel like it."

One of the 23 recommendations from the commission dealt with exporting babies for adoption to other countries. The commission asked that this end. However, babies have been sent to such places as Central America and Alaska, contrary to the directions of the Royal Commission.

Findings of a Royal Commission should be abided by, or else the commissions will become stooges of whatever party happens to be in power.

We want to know the government's reason for failure to carry out many of the recommendations of the Royal Commission on Child Welfare.

Co-Operation On District Rodeos

The Claresholm stampeade association has decided to hold, this year, a baseball tourney in place of the usual rodeo and stampeade, in deference to Macleod's big cowboy event. Although lack of enough cowboys is the reason given for the decision, we sense here that lack of gate receipts in sufficient quantities to keep up with expenses, may be another reason.

In any case, we feel that this co-operation between the two towns is an excellent example for other towns to follow. Last year, several stampeades of many years standing were discontinued. Why not combine two or more annual rodeos in one town, and annual sports tourneys in another. In this way one good annual summer event, which should prove profitable, would be preserved for each town, instead of two non-co-operating towns staging four money-losing events?

This, of course, requires an element of good will and spirit of co-operation. Neither should be lacking in our Alberta communities.

The Bible Says:

For God so loved the world, that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life.—St. John, III; 16.

A Little Philosophy

By T. W. PUE

Sometimes it does us no harm to let our thoughts take flight from this hum-drum, day-to-day, down-to-earth life and philosophize on things a little outside our keef.

This week I'd like to explore the realms of astronomy and human thinking. Like to go along with me?

IS MAN WORTHWHILE?

The study of astronomy is an interesting effort on the part of man to understand the universe but the illimitable stars and the secrets of the sky made it quite clear that the only importance the man can attach to himself comes from the belief that he was made in the image of God, a little lower than the angels and crowned with glory and honor.

Our authority for this assertion can be found in the Bible. It is necessary for the contemplation of man as he looks up and learns about the universe. The earth, on which we live and which seems so important to us, is as nothing compared with the sun and it, in turn, is as nothing compared with the immensities of the known universe.

The astronomers tell us that the sun is 864,000 miles in diameter and, if hollow, would hold the earth and the moon, with room for the celestial object to revolve on its orbit with considerable space to spare. In fact, it would take a million and a third earths, packed into one planet, to be as big as the sun.

So it comes when man, operating in a material world, considers himself as a physical being, he realizes that he is nothing. It is only when man becomes conscious of his spiritual affinity with a Supreme Being and lives according to his light that he becomes worthy of note in a material universe.

The distances of the universe are truly astronomical. Light, travelling 186,000 miles a second, takes four and a quarter years to reach us from Alpha Centauri, our nearest star. Reigel, in the constellation Orion, is further away and the light that we see started on its journey about the time of Joan of Arc.

Recent revelations from competent and intelligent astronomers suggest that the number of galaxies in the universe is practically without limit. Distant star-clusters that form the mysterious nebulae are, even yet, beyond the intelligence or imagination of the best human minds.

Anti-Rat Campaign Speeded In Alberta

Under the slogan of "KROOA"—a catch word formed from the first letters of the phrase "Keep Rats Out of Alberta"—the Department of Agriculture is organizing a campaign to repel a threatened rat invasion of Alberta.

Rats provide a definite threat to Alberta. Last summer a colony of rats was found living on a farm near Alsaak and quickly destroyed. This was the first evidence in the history of Alberta of a colony of rats establishing itself in the province.

A number of rat colonies already have been established in Saskatchewan on the eastern boundary of that province. These colonies are the forward outposts of a large and destructive army of rats which is moving northwest towards Alberta at a rate of about five miles a year. There is also the possibility of rats coming into the province on freight trains, and trucks from rat-infested areas.

The first legislative measures to prevent the establishment of rats in Alberta was taken when the Minister of Agriculture declared the rat a pest under the Agricultural Pests Act of Alberta, an act administered by the Department of Agriculture.

The pest control officers are the basis of the anti-rat program. These officers are appointed by their municipalities, villages, towns, cities or other local governments and will supervise and apply rat control measures with advice from the local district agriculturists. Currently there are 110 year control officers appointed in Alberta and other are being appointed.

Note and Comment

Rain-making, according to the experts may be overdone.

The man who expects a favor always wants it yesterday.

Scenery may be interesting but it's the people that really count.

Opinions, editorials or otherwise, are not news and they may be poisonous.

Argentina is governed by a Dictator just as surely as is Communist Russia, and Fascist Spain. Unable to intimidate the Publisher of La Prensa, the Country's leading newspaper, Dictator Peron closed the paper and the Publisher fled to Uruguay.

Voice of the People

"VOX POPULI, VOX DEI"

FOLKS ARE FURIOUS!

Dear Sir—Those who attended the recent Smoky Lake municipality annual meeting are furious over the statement of a councillor that 90 per cent of the people in this district can't read English!

At various times myself and my neighbors have written to Council and they haven't even replied. What kind of a Council have we out here?

Waskateanu. L. L. ELSEY.

HE'S DISGUSTED

Dear Sir—An old-timer in the north end of Edmonton recently had the misfortune to have his house and property classified in the J section for heavy industry. A rock crusher was therefore allowed to operate six days a week on the next lot. It was not only nerve-wracking, but so dusty that washing had to be done on a Sunday.

The income to the city was negligible yet this old-timer had to vacate his home and find a place to live in comfort.

Now he can neither rent nor sell his house.

Edmonton. DISGUSTED.

RELIGIOUS EXERTS

Dear Sir—It seems to be only in religious matters that people want to be left entirely on their own.

When we are sick, we call in a doctor, we do not doctor ourselves. We do not argue our own case in court, we get a lawyer. Are the facts in religion so simple they can be handled by anyone? Religion is a difficult field and is in need of experts.

CAROLINE OLCHOWAY.

WATCH LIBERALS

Dear Sir—In a recent issue you quote Mr. Welbourne, Liberal M.P. for Jasper-Edson, as blaming Britain for the western farmers not getting paid enough on the wheat pool.

When the Liberals start talking morals, watch 'em! Even the devil can quote scripture when it suits his purpose, and Liberal Welbourne, who is also an apt graduate of double-talk, gives his constituents nothing but election promises!

LIKES IT HERE

Dear Sir—There certainly are some peculiar people in the States. I think everybody in the U.S. must be nuts. I'm sure glad we're still got the Union Jack waving here.

Edmonton. JOE DOAKES.

256 RELIGIONS

Dear Sir—Yes, the Bible is the best book in the world, when read to be understood and not just for lip service. There are 256 religions in North America and none of them agree. How am I to know which is right?

HEART'S STILL HERE

Dear Sir—Good luck to the Edmonton Flyers next year! We'll all be rooting for you.

Edmonton. HOCKEY FAN.

RAZZ FOR RESEARCH

Dear Sir—We suckers have forked over millions of dollars for all sorts of so-called medical research funds. And what do I see in a headline just the other day but "Cause and Cure of the Common Cold Still Baffles M.D.s." After 100 years of trying, medical science still hasn't solved the common cold; yet these test-tube doctors still have the nerve to ask for more dough.

Edmonton. MIKE LENTZ.

HERO'S RETURN

Dear Sir—What do you think of this? A young service man returns from Korea, after some bad experience which he just managed to survive. And what was his greeting by his dear wife? The news that she had just instituted divorce proceedings. What patriotism!

Jasper Place. P.P.C.I.L.

NOT WORRIED

Dear Sir—I read in the paper that some American said Canada would be an easy target for Russian planes. By what authority? Does he know what a Sabre F84 jet plane is? Doesn't he know that our 426th Squadron of the RCAF are one of the first units to participate in the Korean conflict, or hasn't he got off his elevator yet?

Rosedower. A.N.C.

GENT TOLD OFF

Dear Sir—In answer to that sarcastic letter writer who claimed Canadian women don't know anything about love: If you look as bored as you sound it's no wonder the women you meet are frigid. Have you read what the Kinsey report has to say about you male loveboys? Or why don't you go to Korea and let some guy who isn't so bored with women come home? In conclusion, we could broaden this subject and say what we really think of you, but no newspaper could print it.

U.S. Youths Dodging Military Draft Seeking Refuge on Alberta Farms

American youths evading the U.S. army draft are seeking refuge on Canadian farms, according to a report received by this paper.

"Hundreds" of young Americans have established themselves in Canadian rural areas, according to a conservative estimate.

Quebec and the prairie provinces are the goal of most American draft-dodgers.

The disclosure that draft-age Americans are seeking refuge in Canada to escape compulsory military service from several authorities who are in the know on immigration matters.

Dominion immigration authorities are being asked to take a tougher policy against young Americans migrating here.

The only people to whom the immigration officers show a tough attitude are Communists and Communist sympathizers who try to enter or leave Canada.

On the other hand, young men who are running away from serving their country are said to be entering freely.

Wilderness Hazards Fail To Halt Road Crews

Sub-zero temperatures, prowling wolves and bears, and the hardships of surveying a road in trackless wilderness have failed to deter progress of Alberta Public Works crews surveying the Whitecourt to Valleyview highway.

The proposed highway on which the crews are working will run from Whitecourt along the Athabasca River, then in a north-westerly direction to Valleyview, a probable road distance of approximately 110 miles, or pass through Snipe Lake. At the moment, specifications for the proposed highway call for 200 feet of right-of-way with a highway surface of 36 feet in width.

The road will offer a short route from Edmonton to the Peace River Valley. Through it the economy of the Peace River area and the life of its residents will be linked more closely with the economy of the rest of the province.

When it was decided in 1950 to start construction of such a highway, A. Frame, Highway Commissioner and A. M. Paul, Chief Construction Engineer, using a helicopter, reviewed the whole area including Snipe Lake area, in order to find proper bridge sites to cross the Athabasca River and to find a good general location for such a highway. Work on the survey actually began in October with two survey crews. One crew working southeast from Valleyview through previously surveyed country and following an old survey line, has penetrated approximately 28 miles of country. The other crew, moving at the rate of about 4,000 feet a day along the previously surveyed road, has

moved 31 miles towards its junction with the Valleyview road near Iosegun Lake or Hash Lake, which is approximately 55 miles from Whitecourt.

Because the spring thaw makes ground movement almost impossible, the survey crews had to halt work last week until the summer months.

In the area which the road will traverse there is much good farming land as well as many acres of burnt over timber.

NEW SLATE OF OFFICERS ELECTED AT LADIES' CURLING CLUB BANQUET

BEISEKER—The Ladies' Curling Club held their annual banquet last Thursday evening at the home of Mrs. Lou Brosteaux and really enjoyed a tasty chicken dinner with all the trimmings.

The dinner was followed by the election of officers, with Mrs. Lou Brosteaux, president; Mrs. Felix R. Schmalz, vice-president, and Miss Vera Keim, secretary-treasurer.

Court whist was enjoyed for the evening's entertainment, with Mrs. Adam Velker winning high and Miss Delores Silberghal the low.

It seems that the curling ladies found themselves short of one player for whist, and Mrs. Matt Schmalz, a close neighbor, was called in, and we hear that she became very enthusiastic about curling. All the ladies feel that if she becomes a member and is interested in curling as she is in what they will all be jealous of the skip who draws her name!

Pupils Collect Eggs

For Easter Gift

To Red Cross Hospital

BEISEKER - The pupils of grade 7 and 8, under the supervision of their teacher, Mr. Lorne Bunyan, and who are members of the Junior Red Cross, carried out the same praiseworthy project as they did last year in collecting eggs as a donation to the Junior Red Cross Hospital, Calgary, for Easter.

The pupils worked hard to make their gift worthwhile, and on Tuesday, March 20th, were repaid for their efforts in having 128½ dozen eggs totaling 1447. Some of the girls wished to make the crates more attractive, and to have the Red Cross spirit dyed sufficient to make a gift to the top layer of each egg crate. Mr. Bunyan climaxed the project by seeing that the eggs were delivered to the hospital on Good Friday night, April 6th. Mr. Bunyan and his pupils will thank all those who contributed to this project by donating eggs or money, because without their contribution it could not be a success.

The following is a letter received from the Red Cross in appreciation of the gift:

Junior Red Cross,
1504-1st Street E.,
Calgary, Alta.

Mrs. Bernice Hagel,
Secretary, Junior Red Cross,
207-7 Beiseker School,
Beiseker, Alberta.

Dear Bernice: Thank you very much for the lovely donation of \$14.70. Enclosed is receipt No. 32470. Thank you also for the eggs and candy you sent to the Crippled Children's Hospital. We think this was a very lovely thought and your pupils and your teacher and all Junior Red Cross members. Keep up the good work.

KATHLEEN HERMAN,
Director, Junior Red Cross.

BEISEKER—Beiseker and district has reached a total of \$700 in its annual Canadian Red Cross Society campaign for a total of \$1,200. Judge: "Aren't you ashamed to be seen here in court so often?"

Prisoner: "Why no, your honor. I always thought it was a very respectable place."

Good Judgment

Pon: "You never kiss me except when you want money."

Mom: "Well, isn't that often enough?"

Merely The Truth

Excited female voice: "Wait a minute! Don't start this street car until I get my clothes on!"

The passengers craned their necks expectantly. "Twas only a housewife on her way to the laundromat."

Second-Story Man

"Mamma, what's a second-story man?"

"Your father is one, dear. If I don't believe his first story he always has another one ready."

A Big Job

"Certainly, Miss," said the photographer; "that's our specialty."

"Well," said the girl, "see what you can do with this picture of Boulder Dam."

LETTER TO LOUISA

Young Wife Loses Husband

DEAR LOUISA—I have followed your column for some time and I find it very interesting.

I would like to ask your opinion on something.

My husband was killed on Jan. 3rd and on Jan. 2 I had a baby girl. At that time one of my husband's sisters was staying with us, but after he was killed the one from B.C. came. I was unable to tend to funeral arrangements, so my brother did. And I'm sure we gave him a decent burial, even though I have ten thousand debt to worry about. When it came to flowers, I never bought any, but now the sisters write back saying that never did they see a funeral where the wife and children didn't have a flower to put on the grave.

Well, I was truly shocked, as I was sure it is up to the family to look after the grave, like picking weeds, planting flowers, tombstone, etc. Now my question is, does a wife put flowers on her husband's grave. I would just like to have your opinion.

WONDERING.

Answer:

Under the circumstances I don't think you were to blame for not sending flowers to your husband's funeral. I do not know of any hard and fast ruling on the subject of the upkeep of the grave, but it seems it would be nicer if you and the family shared the responsibility.

I am sorry to hear of your bereavement.

LOUISA.

REUNION of 26-year-old seaman Bernard Kynaston of
Duncan, B.C. and 21-year-old Louise Gilmour of Belfast,

after climaxed six years of courting by correspondence.
They met in Ireland, had not seen each other since 1945
when the couple were wed last week.

IT'S AMAZING

How Weatherman Gets 'Tips' From 'Upstairs'

The weatherman gets a chance to poke up into the strato-
sphere at only one point in this big province.

And sure enough, that's Edmonton,
where Alberta's only "radio-
sonde" office is located at 115 st.
and 111 ave.

To the weatherman, the office
there is more significant than all
the neon lights on Jasper ave.

Probing the stratosphere by
radio-sonde balloon gives the fore-
caster 12-hour reports on the
pressure, temperature and hu-
midity of all levels up to 50,000
feet or more.

By attaching a metal target to
the balloon he is also able to
get wind speed and direction up-
stairs.

It is a matter of following the
target on a radar screen, and the
beauty of the method is that
clouds make no difference what-
soever.

Just outside the province, the

Census To Count Languages Spoken

In the 1951 Census of Canada,
to be taken this June, each person
will be asked to state whether he
speaks both official languages,
i.e., English and French, English
only, French only, or neither. In
only French only, or neither. In
addition to the inquiry on official
language, there will be a ques-
tion on mother tongue.

For census purposes, mother
tongue is defined as the language
first learned in childhood and still
understood by the person. Infor-
mation gathered in the census on
this subject is useful in indicating
the relative number and location
of the people of various language
groups in Canada.

Thanks Crossfieldites

Friends of Crossfield Community, Crossfield, Alta.

Dear Friends: Your wholly unexpected presentation to me has moved me deeply and to you all I would like to express my heartfelt thanks. My sojourn among you during the last thirty-eight years I can truthfully say has been the happiest and most rewarding years of my life. During the hard times and the good times I have been happy working with you.

I will be back. My health is improving day by day, and I expect to be returning to Alberta during the early part of May when I hope to see you all again. Words are useless to express my feelings, but to each and every one of you I want to say again "Thank you."

Sincerely yours,

Toronto. D. W. WHILLANS.

COLUMBUS CLUB DONATES FUNDS
FROM EASTER DANCE TO HALL FUND

ROCKYFORD. — The Easter Monday dance sponsored by the Rockyford Columbus Club was attended by quite a large number in spite of the wet weather. All proceeds from the dance went to the hall.

Viggo Pederson, local I.H. dealer, sponsored a stage show recently in the town hall. The hall was filled to capacity and everyone enjoyed the movie shorts, accordion playing, acrobatics and many other interesting and thrilling features.

We are all glad to see Mr. Joe Kroester up and well again after a recent operation in Calgary.

Many of the farm dams which were built for irrigation purposes have broken down, overflowing the ditches and creeks.

The town is taking measures to prevent melting snow from flooding the basements of many homes.

Mr. A. E. Volker attended a two-day convention of the Alberta Cancer Society in Calgary last week. The annual drive for funds for the Cancer Society will be started within the next couple of weeks.

Mr. Irwin Hinget is spending six weeks in Calgary taking up a course in mechanics.

We like to go visiting to see how other people produce textiles. A good many come to visit us, and we like this too. All main countries have textile industries, and people come from other countries in the western group to study our methods. The textile industry here in Canada is among the leaders in technical skill and effectiveness. And along with the U.S. it pays the highest wages for textile employment anywhere. In Canada the industry is the largest employer of manufacturing labor. Textiles also pay the largest manufacturing wage bill in this country. In these times, the size and technical ability of the industry are important features of Canada's strength.
